

# ApplePie

# Introduction

The 'ApplePie' range by Ekol.

Whether it be for a boat, yurt, glamping pod, shepherd's hut or just a compact fireplace, 'ApplePie' can be adapted and customised to suit. With its very low distance to combustibles this stove is ideal for small spaces.

With its individual styling and multiple cooking options including stainless cooktop, top baking oven, pan supports to one or both sides as well as griddle plate and pizza shelf inside, the ApplePie is the 'Swiss Army Knife' of wood burning stoves.

Amongst an elite handful of small-space stoves fully compliant with DEFRA and Ecodesign 2022 it can be used to burn wood anywhere in the UK.

With full cast iron construction and weighing in heavier than many stoves more than twice its size, it really is built to last.

Primary, Secondary and Tertiary air are intuitively controlled by a single air control and with an extra large window, enthusiastic fire-starters and chefs can easily monitor their creations.

Inside...

Or outside.

(we recommend shelter from direct rain)

A cozy indoor scene featuring a wood-burning stove with a fire, a wooden table with a mug, a basket of yarn, and a chair. The stove is white with a black top and a glass door showing a bright fire. The table is made of light-colored wood and holds a brown ceramic mug, a wicker basket filled with yarn and knitting needles, and a spool of white twine. A wooden chair is visible in the foreground. The overall atmosphere is warm and rustic.

Cooking, Heating or both.

Versatility as Standard.

# Choose your model

Brushed stainless steel and hardwood handles included with every stove.  
Internal (removable) pizza / griddle shelf included with every stove.

One Stove, Modular Options.

Make Your Small Space Unique.

# Short Enclosure

# Tall Enclosure

# Distance to Combustibles

**SINGLE WALL FLUE**  
Rear Flue Configuration

Back Wall: 250mm  
Side Wall: 350mm

(210 mm from back of stove to wall  
when used without Vertical Rear Flue Adaptor)

\* Distances from flue to wall need separate consideration  
based on local regulations and flue designation

**TWIN WALL FLUE**  
Rear Flue Configuration

Back Wall: 50mm  
Side Wall: 300mm

(100 mm from back of stove to wall  
when used without Vertical Rear Flue Adaptor)

**TWIN WALL FLUE**  
Corner Configuration

Left Side Wall: 150mm  
Right Side Wall: 150mm

(Observe same distances when using  
top outlet and twinwall)

Distances can be reduced further with adjacent shielding on the wall. (Contact us for details)

Additional Notes

Thank you for taking the time to consider an Ekol ApplePie Stove. We understand that choosing the right stove can be an important decision.

If you would like any guidance at all, please contact either your local Ekol ApplePie specialist or you are more than welcome to contact us directly for any information or support.

Your new Ekol ApplePie will come with 10 years body warranty for peace of mind, and technical support forever should you need it.

The ApplePie range of options will continue to expand - if there is a variation or design option you would like but cannot see in the brochure, you can contact us or take a look at the website for new design options as they emerge.
